

Table 2

[STATE]

Project ID (ST-FO-####)	Treatment Type (Haz Fuel Reduction, ESR, IWM, Range, Wildlife, AML, Maintenance, etc.)	Treatment Method (Mechanical, Manual, Chemical, Fire, Biological, etc.)	Application Method (chaining, tilling, mowing, roller chopping, etc)*	Annual Treatment Acres Anticipated short-term** (0-3 years)	Average Annual Treatment Acres Anticipated long- term*** (3 - 10+ years)
e.g. NV-010-001	e.g. Hazardous Fuels	e.g. Mechanical	e.g. Feller-Buncher	e.g. 2,000 acres	e.g. 2,500 acres
NV-010-002					
NV-020-001 etc.					

* For each Treatment Method, identify the method of application.

** This data should reflect treatments proposed since FY2001 and anticipated for FY2002 and FY2003. Beyond FY2003, treatment acres should be extrapolated as accurately as possible given anticipated field office capabilities (contracting included).

** This data should reflect the trends established in the short-term with reasonable projections based on increases or decreases in anticipated field office capabilities (contracting included).
